AUDIO ISSUE

<p>Have you cleaned the sound canal? In most cases wax blocks the sound canal. Use your cleaning tool provided with your monitors to remove any wax inside the canal tube.</p>	
<p>Have you checked the detachable cable? Detach the cable and make sure the left and right indicators are matching with the left and right In-Ears.</p>	
<p>Molds or housings are cracked?</p>	

Wich monitor(s) are you having audio issue with?
